PROFILE

Infrastructure and IT professional with ~3 years of hands-on experience in Linux systems administration, containerization, and enterprise application delivery. Administers F5 BIG-IP (LTM, DNS/GTM) infrastructure for traffic distribution, load balancing, and production application availability, with daily use of Docker and Git/GitHub for version control. Builds automation and monitoring workflows using Python, Bash, and the ELK Stack, across Linux (RHEL, Debian, Arch) and virtualized environments (VMware, KVM, Proxmox). Brings a security-first perspective from application security engineering — increasingly valued on DevSecOps-oriented teams — alongside a solid Linux, networking, and infrastructure foundation.

PROFESSIONAL EXPERIENCE

Application Security Engineer

Jan 2025 – Present

Digital Network Solutions | Nagpokhari, Kathmandu

- Administer F5 BIG-IP (LTM, DNS/GTM, ASM) infrastructure, managing traffic distribution, load balancing, and application delivery to maintain production availability and performance.
- Deploy and tune WAF and traffic-management policies, balancing system reliability and protection across production environments.
- Troubleshoot SSL/TLS, DNS, and traffic-routing issues, minimizing downtime and maintaining service-level performance.
- Analyze system and infrastructure logs to identify and resolve operational issues, coordinating with application and client teams on deployment and remediation.

Security Research Analyst

Oct 2024 – Dec 2024

SecurityPal Inc. | Baluwatar, Kathmandu

- Evaluated technical and infrastructure controls, researching security topics to support client-facing documentation.
- Documented technical findings and best practices, supporting internal knowledge management and process consistency.

Technical Customer Support Representative

Apr 2023 – Oct 2024

Subisu Cablenet Ltd. | Baluwatar, Kathmandu

- Provided Level 1 technical support for enterprise network and system issues, including connectivity and infrastructure troubleshooting.
- Performed remote configuration and diagnostics across customer network environments, building foundational operations and networking experience.

TECHNICAL SKILLS

Systems & Linux Administration	Linux (RHEL, Debian, Arch) and Windows Server administration; WSL
Containerization & Virtualization	Docker; VMware, KVM, Proxmox
Application Delivery & Load Balancing	F5 BIG-IP (LTM, DNS/GTM, ASM) — traffic management, load balancing, policy configuration
Monitoring & Observability	ELK Stack — log collection, correlation, and visualization
Scripting & Automation	Python, Bash
Networking & DNS	TCP/IP, DNS (BIND, F5 GTM/GSLB), NAT, VLANs, SSL/TLS
Version Control	Git, GitHub
Security & DevSecOps Fundamentals	OWASP Top 10, WAF policy management, vulnerability awareness

CERTIFICATIONS

Certified Associate Penetration Tester (CAPT) — Hackviser, 2025
Certified Web Security Expert (CWSE) — Hackviser, 2026
F5 Certified Technology Specialist – Application Security Manager (F5-CTS, ASM) — F5 Networks, 2026
F5 Certified BIG-IP Administrator (F5-CA) — F5 Networks, 2025
Google Cybersecurity Certificate — Google, 2022

EDUCATION

Bachelor of Computer Science and Information Technology Tribhuvan University	2024 (2081 B.S.)
Higher Secondary Education Gyankunj Secondary School & College	2019 (2076 B.S.)
Secondary Education Model School, Thankot	2016 (2073 B.S.)

OPERATING SYSTEMS & LANGUAGES

Operating Systems Linux (RHEL, Debian, Arch), Windows, WSL
Languages English (Professional), Nepali (Native), Newari, Hindi
