PROFILE

IT and Network professional with ~3 years of hands-on experience administering enterprise network infrastructure and application delivery across Linux and Windows environments. Specializes in F5 BIG-IP (LTM, DNS/GTM, ASM) for traffic management, load balancing, and application availability, backed by working knowledge of core networking protocols (TCP/IP, DNS, VLANs, SSL/TLS) and hands-on diagnostics using Wireshark and tcpdump. Built a strong foundation in network troubleshooting and customer support before progressing into infrastructure administration, and scripts in Python and Bash to automate routine administration tasks.

PROFESSIONAL EXPERIENCE

Application Security Engineer

Jan 2025 – Present

[Digital Network Solutions](#) | [Nagpokhari, Kathmandu](#)

- Administer F5 BIG-IP (LTM, DNS/GTM, ASM) infrastructure, managing traffic distribution, load balancing, and application delivery across production environments.
- Configure and maintain DNS services (BIND, F5 GTM/GSLB) and SSL/TLS certificates to keep applications reliably and securely accessible.
- Monitor network and application traffic, troubleshooting connectivity, performance, and availability issues to minimize downtime.
- Analyze system and network logs to identify infrastructure issues, coordinating with client and application teams on resolution.

Security Research Analyst

Oct 2024 – Dec 2024

[SecurityPal Inc.](#) | [Baluwatar, Kathmandu](#)

- Evaluated security and infrastructure controls against compliance requirements, translating technical findings into clear guidance for clients.
- Documented technical best practices and findings to support internal knowledge management.

Technical Customer Support Representative

Apr 2023 – Oct 2024

[Subisu Cablenet Ltd.](#) | [Baluwatar, Kathmandu](#)

- Provided Level 1 technical support for network and system issues across a large residential and business customer base.
- Diagnosed and resolved connectivity issues, performing remote router/modem configuration and troubleshooting across customer premises equipment.

- Escalated complex network issues and performed remote configuration changes to maintain service availability and customer satisfaction.
- Built foundational expertise in enterprise networking operations and ISP infrastructure support.

TECHNICAL SKILLS

Networking & Protocols TCP/IP, DNS, NAT, VLANs, VPNs, SSL/TLS; Wireshark and tcpdump for traffic analysis and troubleshooting

Application Delivery & F5 BIG-IP LTM load balancing, DNS/GTM, ASM / Advanced WAF configuration and policy management

Systems Administration Linux (RHEL, Debian, Arch) and Windows Server administration; WSL

Infrastructure & Virtualization Docker, VMware, KVM, Proxmox; Git/GitHub

DNS & Infrastructure Services BIND DNS administration, GSLB configuration

Monitoring & Logging ELK Stack, SIEM fundamentals, log analysis and correlation

Scripting & Automation Python, Bash

Security Fundamentals OWASP Top 10 awareness; Burp Suite, Nmap, Metasploit

CERTIFICATIONS

F5 Certified Technology Specialist (F5-CTS) — F5 Networks, 2026

F5 Certified BIG-IP Administrator (F5-CA) — F5 Networks, 2025

Certified Web Security Expert (CWSE) — Hackviser, 2026

Certified Associate Penetration Tester (CAPT) — Hackviser, 2025

Google Cybersecurity Certificate — Google, 2023

EDUCATION

Bachelor of Computer Science and Information Technology Tribhuvan University	2024 (2081 B.S.)
